

Love is not a noun. It is a verb. We intend this event to be the catalyst for the steps needed to ensure that our campus and community are inclusive, safe, and healthy for all.

The gathering is a space for you to share how recent events have impacted you and what you need to feel safe. Organizers and attendees will listen and begin to plan for change.

Students, faculty, and the community will come together to dance, create, speak, cry, and share expressions of solidarity and coalitional work.
