KSU in Berlin is a ten-day, faculty-led study abroad program in Berlin and Potsdam that focuses on German cultural memory of important historical eras. While in Berlin, we will visit and discuss a number of historical sites and buildings, while also enjoying parks, museums, a performance, and food! Prior to departure for Berlin, students will be required to attend two meetings on the KSU campus and complete reading and writing assignments submitted on Canvas to prepare for the study abroad experience.
